RESIDENTS, BUSINESSES & ORGANIZATIONS IN THE MIB SCHOOL DISTRICT

PLEASE JOIN US FOR A…

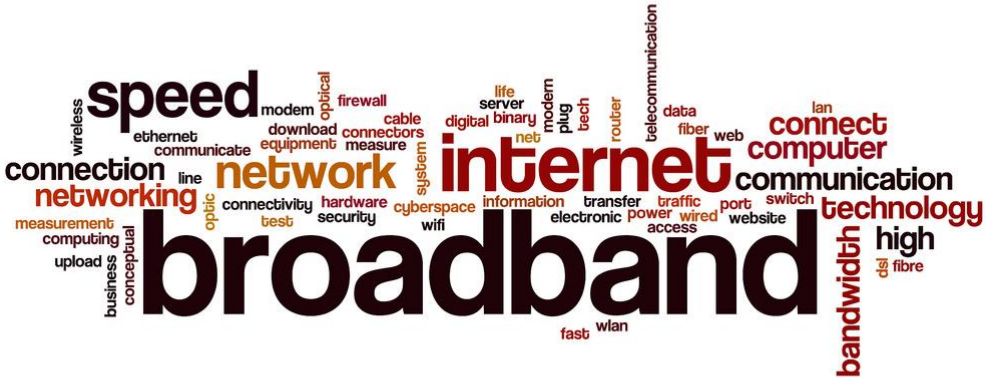
COMMUNITY VISION SESSION

Wednesday, October 31, 2018

9: 00 a.m. – 11:00 a.m.

Mountain Iron Community Center

8586 Enterprise Drive
Mountain Iron, MN 55768



Background and Meeting Info:

Since applying and receiving an initial grant award in 2016, the Mt. Iron – Buhl School District Community has been participating in the Iron Range Broadband Communities (IRBC) program through the support of the Blandin Foundation, Iron Range Resources & Rehabilitation Board and St. Louis County.

Some of the projects that have been implemented as a result of this initiative include: wifi on school buses, website and technology upgrades for Great Scott Township; technology trainings for the public; trainings and technology inventories for businesses; GIS technology, leadership training and programming to support the School Forest Program; placement of 80 desktop computers in public buildings and homes of district students; and a collaborative feasibility study with neighboring communities to recognize the challenges and pursue better broadband connectivity in the region in a unified manner.

Our MIB community will once again have the opportunity to identify and pursue potential technology projects through an additional round of grant funding of up to $50,000 in matching dollars. Our IRBC Committee encourages our community members to attend the October 31st meeting to discuss needs and ideas.

Please join us if you can—no costumes required! Hope to see you there!
